To Whom It May Concern:

Wendy Ekua Quansah is an exceptional individual who has the rare combination of skills and enthusiasm. I am excited to hear she wants to join the staff at WSOU. She has already displayed top-notch qualities during her internship in the WBGO News Department.

Wendy worked as an intern reporter in the summer of 2009. She quickly gained the respect of this news director and her co-workers. She handled her duties with care and professionalism. Her wraps and voicers aired on the station, reflecting her work covering news conferences, research, live events and various phone and in-person interviews.

Wendy has done a great job in staying in touch with our department, demonstrating her ability to work in a professional radio station environment. I highly recommend her for any duties that become available at WSOU.

Feel free to contact me if you have any questions about her work here at Jazz 88.

Sincerely,

Doug Doyle

News Director
